Scrubby

**The all purpose machine
for cleaning small rooms
without the inconvenience
of an electric cable...**

simply clean...

Scrubby 715.000

Floors, Staircases, Walls, Ceilings, Bathrooms, Toilets or Sauna Spot cleaning on textile carpets, Terrace areas, Boats, Caravans, etc.

The Scrubby Machine cleans effectively. It offers you easy and comfortable cleaning in all kinds of difficult places and narrow areas without the annoying presence of electric cables. Extra precautions for working in damp areas are no longer needed. The machine is extremely lightweight at less than 3 kg including a battery. A 9,6 V rechargeable battery and separate 1 hr quick-charger make the Combi Machine the perfect assistant on your cleaning trolley or the ideal combination with bigger floor cleaning machines.

The 18 cm brush and free space around the motor allow the Combi Machine to function in corners, skirting boards, walls, ceilings, etc. Now all hard-to-clean and difficult to reach nooks and crannies can be comfortably cleaned by machine. The functionality of the Scrubby is best shown in areas where conventional cleaning methods are either impractical or laborious.
